Grow Render Studio social presence

The ask

mktpitch1 1/5 point left/right to step

- Product name is Render Studio. Always include https://render3d.app.

- Growth = real clips of shipped UI, not vanity metrics.

- Never invent follower counts, tweet IDs, or live post URLs.

Grow Render Studio social presence

Accounts we actually run

mktpitch1 2/5 point left/right to step

- @a1_projects ? product / studio surface.

- @winstead_works ? founder / build-in-public.

- If a count is not in grok_stats or X analytics, leave it blank.

What to publish

mktpitch1 3/5 point left/right to step

- GIF 2?6s for tools. MP4 for Record / VR spectator. PNG for logo/OG.

- Caption footer: Built in Render Studio https://render3d.app

- Draft with x_post confirm=false. Live needs Sam.

Grow Render Studio social presence

Share-to-X loop

mktpitch1 4/5 point left/right to step

- Record ? stop ? You?re done recording ? Share to X (download-then-compose).

- Same path from markup, clip editor, VR POV, Reference Files.

- Bot never fires paid Generate or posts without confirm=true.
